## Diabetes Screening & Prevention at Work

# Why Screen for Diabetes at Work?

of UK adults could be living with diabetes or prediabetes - most without any symptoms.<sup>1</sup>

- Raised blood sugar can impact energy, focus, morale, and long-term health.
- Early detection means early action - helping prevent complications before they start.
- A healthy workforce is a productive, engaged workforce.
- Rapidly Rising Rates: The UK's diabetes rate has almost doubled in the last 15 years.

# What is HbA1c?

- HbA1c reflects your average blood sugar levels over the last 2-3 months.
- The gold standard for identifying diabetes and prediabetes.
- Quick, finger - prick test - no fasting needed!

# How Can Screening Help?

## For Employees:

- Early identification of risk
- Personalised lifestyle guidance
- Boosts daily energy and wellbeing
- Reduces stress around health concerns

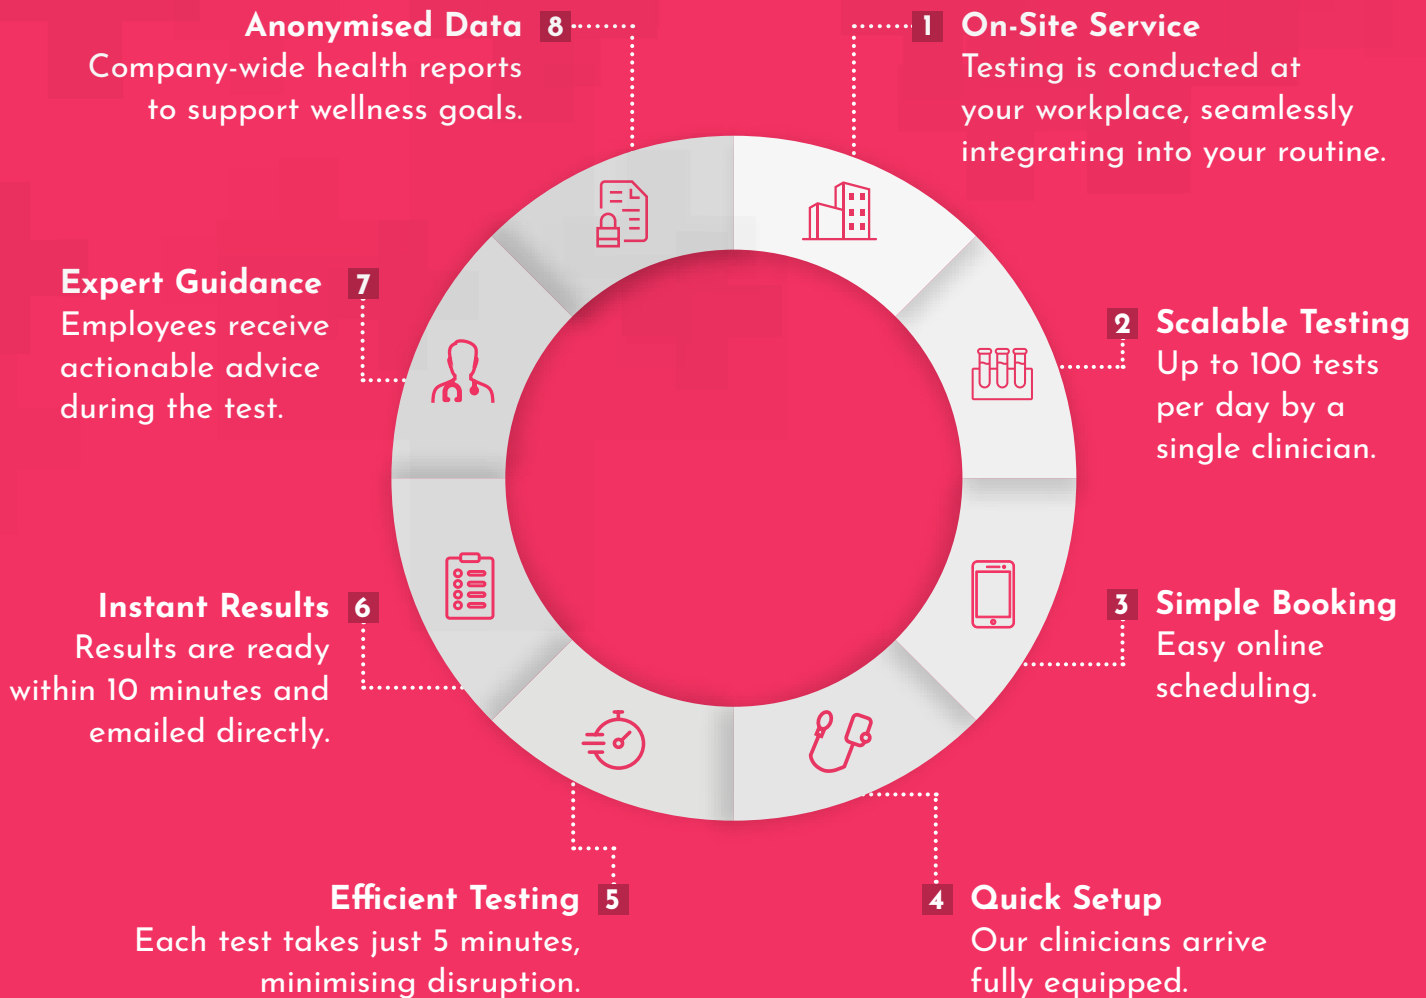

## For Employers:

- Fewer sick days - and presenteeism
- Improved morale and engagement
- Enhanced productivity
- Supports your health & wellbeing strategy
